EXCURSION ACTIVITIES IN DIANI

COLOBUS ECO TOUR Guided primate Eco Tour - 1 Hour
The Colobus Conservation is situated in Diani, South Coast Kenya. Take the first left past KFI supermarket along the Diani beach road (six and a half kilometers from the Ukunda junction). There are signs from there to direct you.
Come for a Guided Primate Eco-Tour, the only one in the country! We will take you on a guided walk along the nature trail for a personal introduction to a wild colobus troop and our other wild monkeys - vervets, sykes and baboons - depending on who is about. This is followed by a talk in the information centre where a series of posters help further to visualise our ongoing conservation activities. As an active conservation centre visitors are likely to see volunteers and staff at work, building bridges, caring for our injured monkeys or doing research.

Return under full sail to an isolated restaurant for a magnificent seafood lunch. Then visit the coral gardens or laze in the restaurant gardens by the water edge.

KAYA KINONDO SACRED FOREST TOUR
Explore World Heritage-listed vegetation layered with meaning at Kaya Kinondo Sacred Forest, the oldest pocket of sacred forest for the Mijikenda people on the Kenyan coast. A source of ritual power and cultural identity, the forest is also a place of worship for a number of other ethnic groups. Extending from the Indian Ocean, it features great biodiversity, with 187 plant, 48 bird, and 45 butterfly species. You may also spot mammals like the colobus monkey and golden-rumped elephant shrew. Take a guided tour with an elder along the ancient trails to see spectacularly lush growth and traditional huts, and learn about the plants and their significance. Put Kaya Kinondo Sacred Forest and other Diani Beach attractions into our Diani Beach trip planning site , and watch your holiday take shape.

DIANI BIKE TOUR
A bike tour is the perfect combination between being sporty and exploring the surrounding country. A local tour guide will accompany you, show you interesting places and take you a little off the beaten track.
He is locally well-connected and can show you the traditional Kenyan villages whose inhabitants are very excited about your visit, as this brings a change in their daily lives.
Watch the locals at their daily work, which is largely attributable to the craft. A life far away from the German hectic, work schedules, credit commitments and joko first looks strange, but will make sure to show you a different perspective on life.
